Sontara®

Higher thickness, low particle release and an enhanced absorption rate

SONTARA® TriFlo MULTIPURPOSE WIPES exhibit several outstanding features such as an improved visual aspect, a soft surface on both sides of the product, higher thickness, low particle release and an enhanced absorption rate.

Sontara® TriFlo is made of 80% plant-base raw materials and does not contain binders or other chemical additives.

Sontara® TriFlo

FOOD CONTACT SAFE

Sontara® TriFlo Technology

Sontara® TriFlo represents a breakthrough in nonwoven technology that unveils an innovative multilayer fabric material developed through the proprietary hydroentangling Sontara® technology.

This advanced production process allows the creation of ad-hoc products with exceptional properties, utilizing a virtually endless variety of raw materials.

HOMOGENEITY

Material homogeneity ensuring a superior visual appearance.

NO ADDITIVES

Ultrapure: produced without binders or any chemical additives.

SOFT SURFACE

Sontara® TriFlo ensures a luxurious and gentle touch for users.

REVERSIBILITY

Possibility to use the product on both sides making it last longer and providing a better cost in use.

LINT-FREE

Virtually lint-free product technology reduces particle release.

SUPER ABSORBENT

Higher absorbent capacity compared to similar products.

Benefits

ABSORBENCY

- 50% higher absorbent capacity compared to similar products
- 40% faster absorbency compared to similar products
- Absorbs 8 times its weight
- 2x faster absorbent rate versus other similar Sontara® products

VERSATILITY

- Versatile solution due to its multilayer construction.
- Ideal for multipurpose tasks
- Exceptional hand feeling thanks to increased bulkiness.
- Superior visual appearance and increased quality.

2-IN-1

- Two usable sides depending on the application.
- Capable of dual use due to its two sided structure.
- Soft surface on both sides enhances user experience.

SUSTAINABILITY

- Increased sustainability compared to similar Sontara® products.
- 80% content in plant-based raw materials.
- Available as a fully natural product: 100% bio-based cellulosic composition.

PERFORMANCE

- Due to the unique production process, Sontara® TriFlo maintains its excellent mechanical properties, superior to other similar products, even when wet.
- Gentle touch ideal for applications where softness is paramount.

PURE

- Ultrapure, strong fabric without binders or any chemical additives. This purity is key for applications where an ultrapure solution is essential.
- Virtually lint-free product technology reduces particle release.

Available as a fully natural product: 100% bio-based cellulosic composition.

Sontara® TriFlo

MULTILAYER MULTIPURPOSE WIPES.
OUTSTANDING FEATURES.

CODE	NAME	WIPE DESCRIPTION	WIPE SIZE (mm)	WIPE PACKAGING	WIPES PER CASE	CASES PER PALLET
1000052000	Sontara® TriFlo Multipurpose	White, 1/4 folded	325 x 325	• 75 wipes / bag • 12 bags / box	900	36
1000052029	Sontara® TriFlo Multipurpose	White, perforated roll	325 x 380	• 370 wipes / roll	370	70

Sontara® TriFlo technology allows the creation of ad-hoc products with exceptional properties. Contact your Sontara® Sales Manager for more information.

Sontara®

Cleans up virtually anything

Engineered specifically for wiping, Sontara EC® is a tough, durable material that is abrasion and solvent resistant, contains no binders or glues, is low-linting, and is highly absorbent in water, oil and solvents.

Sontara EC® wipes are creped for excellent drapability and higher bulkiness, making them ideal for a wide range of applications including aviation, manufacturing, painting, auto and machinery repair, printing, graphic arts and much more.

Benefits

HIGH STRENGTH

Tough and durable for multiple reuses. proven to be among the strongest — wet or dry.

HIGH ABSORBENCY

Absorbent and wipes dry. Soaks up 4x its weight in water and also absorbs oil and solvents. Works fast for excellent wipe - dry.

SOLVENT RESISTANT

Stands up to MEK, isopropyl alcohol and other solvents or cleaning agents without falling apart.

LOW LINTING

Leaves behind virtually none of the lint you get with paper and has no additives to contaminate surfaces.

LOW COST IN USE

Tackles isopropyl alcohol, MEK, MPK and other aggressive solvents without falling apart.

FOOD CONTACT CERTIFIED

Sontara EC® White, Sontara EC® Turquoise and Sontara EC® Green are safe to use in food service and food processing.

Sontara EC®

Sontara®

Sontara EC® White

SONTARA® ENGINEERED CLOTH EC IS LOW LINTING, HIGHLY ABSORBENT AND EXCEPTIONALLY STRONG.

Sontara®

An Exceptional Clean Provides the Sharpest Print Quality

Sontara® technology creates clean, low-linting wipes that leave no binders or chemical adhesives on presses, plates or blankets. Low-lint washcloths remove ink and solvents from the blanket quickly and completely, and high strength means no distortion under tension. Sontara® has a wide range of washing cloths specially designed for this demanding industry that will fulfil all your needs. Our washing cloths are recommended by the most prestigious Offset Machines Manufacturers around the globe.

PrintClean

Known for being the reference in the printing industry, our Printclean products are a simple, proven solution that can cut waste, save time and raise the quality of your work. Sontara® printcleaning products are solvent resistant and durable enough to meet the specific demands of the printing industry.

Sontara® technology creates clean, low-linting fabrics that leave no binders or chemical adhesives on presses, plates or blankets. Low-lint washcloths remove ink and solvents from the blanket quickly and completely, with no distortion under tension. Sontara® has a wide range of washcloths specially designed for this demanding industry that will fulfill all needs. Our washclothes are recommended by the most prestigious Offset Machines Manufacturers around the globe.

Available in rolls

Sontara® PrintClean is available in z-folded and roll format in various widths from 520mm to 2,130mm to meet your printer size needs.

Sontara® Printing

Sontara®

PrintClean

An optimum combination of wood pulp and polyester fibres in Sontara® PrintClean produces an exceptionally soft fabric which is perfect for cleaning uneven surfaces as well as printing plates and other items which could be damaged by harsher cleaning materials.

Recommended for:

- Manual pre-press cleaning
- Blanket and roller cleaning
- Printing plate cleaning
- Ink system cleaning
- Chill rolls cleaning
- Mechanical parts cleaning

Sontara® PrintClean

SONTARA® PRINTCLEAN - ABSORBENCY AND LOW LINTING MAKE IT PERFECT FOR UNEVEN SURFACES.

 Sontara®

Engineered for the Toughest Demands of Automotive Refinish

Sontara® Surface Preparation System offers the right wiping product for every stage of the refinishing process to achieve the high quality automotive refinish you are looking for. The unique hydroentangling process from Sontara® uses thousands of high-pressure, needle-like jets of water to entangle the fibres into a Sontara® fabric that's strong and low-linting. Reducing sources of lint or loose fibres can minimize the potential for paint defects. With Sontara®, you get great performance from start to finish.

Sontara® Automotive

Sontara®

Automotive Refinishing Solutions

Sontara® Surface Preparation System offers the right wiping product for every stage of the refinishing process to achieve the high quality automotive refinish you need. Our unique hydroentangling process uses thousands of high-pressure, needle-like jets of water to entangle the fibers into a Sontara® fabric that's strong and virtually lint free. Reducing sources of lint or loose fibers can minimize the potential for paint defects. With Sontara®, you get great performance from start to finish.

Sontara®

Sontara® SPS Degreasing Cloth

**SOLVENT COMPATABILITY ENSURING
NO PROCESS CONTAMINATION.**

- Large and super-absorbent
- Virtually lint-free
- Offers excellent strength, wet or dry
- No added binders or glue that can dissolve on the surface and contaminate your work

CODE	NAME	WIPE DESCRIPTION	WIPE SIZE (mm)	WIPE PACKAGING	WIPES PER CASE	CASES PER PALLET
1000003764	Sontara® SPS Degreasing cloth	Turquoise, 1/4 folded	325 x 420	• 200 wipes / box	200	60
1000003768	Sontara® SPS Degreasing cloth	Turquoise, perforated roll	325 x 390	• 500 wipes / roll	500	60

Sontara® SPS - Primary tack cloth

CHOOSE THE LEVEL OF TACKIFIER THE JOB REQUIRES.

- Heavy "tackifier" - effectively picks up dirt and dust before base coat while minimizing the potential for tack transfer
- Conforming fabric flexible enough to access hard to reach corners

CODE	NAME	WIPE DESCRIPTION	WIPE SIZE (mm)	WIPE PACKAGING	WIPES PER CASE	CASES PER PALLET
1000001907	Sontara® SPS Primary tack cloth	Green, 1/4 folded	305 x 457	• 12 wipes / poly bag • 12 poly bags / box	144	45

Sontara®

Sontara® SPS - Final tack cloth

CHOOSE THE LEVEL OF TACKIFIER THE JOB REQUIRES.

- Light "tackifier"— removes dust and overspray between coats
- Virtually no fraying or linting
- Users report it reduces static build-up on plastic parts and other surfaces

CODE	NAME	WIPE DESCRIPTION	WIPE SIZE (mm)	WIPE PACKAGING	WIPES PER CASE	CASES PER PALLET
1000004011	Sontara® SPS Final tack cloth	Blue, 1/4 folded	380 x 430	• 12 wipes / poly bag • 15 poly bags / box	180	48

Sontara® SPS Polish Cloth

EXCEPTIONAL POLISH APPLICATION & REMOVAL FOR AN "AS GOOD AS NEW" FINISH.

- Extra-soft — safe for your finish
- Traps polish for a brilliant shine
- No streak-producing additives
- Excellent for detailing chrome and interiors

CODE	NAME	WIPE DESCRIPTION	WIPE SIZE (mm)	WIPE PACKAGING	WIPES PER CASE	CASES PER PALLET
1000003775	Sontara® SPS Polish cloth	White, perforated roll	365 x 400	• 275 wipes / roll	275	48

Sontara EC® Green

ALL NATURAL CELLULOSIC PRODUCT (PLASTIC FREE).

CODE	NAME	WIPE DESCRIPTION	WIPE SIZE (mm)	WIPE PACKAGING	WIPES PER CASE	CASES PER PALLET
1000005593	Sontara EC® Green	White, Z folded	325 x 420	• 300 wipes / box	300	70
1000051689	Sontara EC® Green	White, perforated roll	325 x 420	• 337 wipes / roll	337	75
1000051981	Sontara EC® Green	Pastel blue, 1/4 folded	325 x 325	• 200 wipes / box	200	84

Sontara®

Trust, Confidence & Peace of Mind in every wipe

These are the feelings you get when choosing Sontara® MicroPure. Product quality is controlled from the manufacturing of the fabric to the cutting and packaging of the final wipes. Every detail is thought of and managed at high quality standards. Sontara® MicroPure nonwoven styles (woodpulp/polyester) are engineered for cleanroom use and combine the absorbency of a natural fibre with the cleanliness and strength of a synthetic fibre in the same fabric. The product is free from binders and chemical treatments.

Sontara® Cleanroom

Benefits

INCREASED PRODUCTIVITY

Increasing productivity in cleanroom manufacturing is a challenge. This is especially true when it comes to reducing potential contamination that can cause product defects and associated yield losses. Therefore, choosing an appropriate wipe is critical to protect product quality and not put your image at risk.

SAFE IN USE

Sontara® offers quality control from the manufacturing of the fabric to the cutting and packaging of the final wipe, which provides you with reliable product traceability. Advanced packaging design eliminates the need to cut or tear bag in the cleanroom.

LOW LINTING

Sontara® MicroPure is a woodpulp/polyester nonwoven fabric. Made with hydro entangling technology using jets of filtered, high-pressured water, Sontara® fabric is continually “washed” during manufacture. This makes it ideal for cleanroom use since it is free from binders and chemical treatments. The high cleanliness and purity are ensured by low extractable level and ion content, as well as extremely low particle generation by the material itself.

HIGH ABSORBENCY

The fabric styles offer high particle and liquid absorbency due to their cellulose content. Sontara® MicroPure offers an ideal combination of cleanliness, absorbency and purity in a single fabric. Unlike many other nonwoven fabrics, Sontara® does not include binders or additives and is not chemically treated on the surface to reduce particle debris. These additives very often reduce absorbency — an important functional property — and, in addition, can cause contamination from the wipes.

Sontara®

Sontara® Micropure Offers Absorbency and Cleanliness in a Single Fabric

Requirements for wiping and cleaning may vary. Choosing the appropriate wipe depends on many factors, such as the surface being cleaned (i.e. smooth or rough, edges or without edges, etc.), the required level of cleanliness, procedures employed and more.

Sontara®

Consistently Clean and Exceptionally Absorbent

Sontara® Aerospace Grade Wipes are great for wiping surfaces dry, cleaning hard-to-reach crevices, and for use on metal parts and corners because they are specially engineered to resist snagging.

Every Sontara® Aerospace Grade Wipe is clean right out of the box — unlike rental towels which can still contain chemical residue, stains and metal shavings even after laundering. Plus, rags are made from used clothing and are often stained and lack the absorbency and other characteristics needed for critical cleaning.

Sontara® Aerospace

Benefits

PURE

Exceptionally clean — no binders, chemical residue, contaminants or metal shavings that can result in surface damage or rework.

HIGH ABSORBENCY SPEED

Higher absorbency rate can result in wiping jobs being completed more quickly.

LOW LINTING

Low-lint performance helps to minimize defects and contamination.

HIGH STRENGTH

Durable — high strength fibre blend makes Sontara® Aerospace Grade Wipes less likely to snag on metal parts and sharp corners.

SOLVENT RESISTANT

Tackles isopropyl alcohol, MEK, MPK and other aggressive solvents without falling apart.

HIGH ABSORBENCY

Very absorbent — fewer wipes needed to complete the task results in fewer wipes to dispose.

Sontara® Aerospace Wipes meet the Aerospace Material Specification AMS 3819D, Class 2, Grade A requirement

Sontara®

Multi-Purpose Health Care Wipe. Guarantee greater hygiene.

Sontara® Mediclean is a multi-purpose wipe that suits many cleaning needs in the hospital, such as mopping up spills, drying hands in the operating room or wiping surfaces. Sontara® nonwovens are made of more than 50% renewable resources and are free from binders, chemical additives and adhesives. Sontara® Mediclean is designed to absorb up to 5.5 times its own weight in fluids and to maintain exceptionally high strength, even when wet. This guarantees greater hygiene not only in the operating rooms but also in hospital rooms, common areas, ambulances and central sterilizing units. The very low lint effectively eliminates the lint problems that conventional linen sheets cause, protecting the O.R. from contamination.

Sontara® Mediclean

Benefits

HIGH STRENGTH

Lasts longer and stays intact during tough tasks.

WICKING

Excellent wicking capabilities so you can reuse to dry surfaces.

HIGH ABRASION RESISTANCE

Remains strong when wiping even the most abrasive surfaces.

SOLVENT RESISTANT

Stays strong even when used with MEK, isopropyl alcohol and other solvents.

PURE

Exceptionally clean — free from binders, chemical residue and contaminants.

FOOD CONTACT SAFE

Food contact approved by an independent laboratory, making them perfect for this industry.

Sontara

For safety and absorbency

When it comes to the hospitality and food service industries, clean-up is no easy task. A strong, clean wiping product with outstanding cleaning abilities is required, and it must be safe and exceptionally absorbent. Sontara® Food Service Industry Wipes are strong, durable and very absorbent, absorbing 6x of their weight in liquid and making them perfect for soaking up big spills.

Benefits

5 COLORS

5 Colours available to guarantee cleaning efficiency and avoid cross contamination.

SURFACE CARE

Aperture structure to guarantee perfect dirt pick up or for cleaning with a sanitizing agent.

FOOD CONTACT SAFE

Food contact approved by an independent laboratory, making them perfect for this industry.

Sontara® Food Wipes

Sontara®

About Sontara

Sontara® is the leading brand of Glatfelter corporation, driven by a legacy of dedication to innovation, sustainability, and unwavering quality.

Sontara® is a strong leading nonwoven brand you can trust with a proprietary production process that is unique to the world.

Sontara® fabrics are made using advanced technology resulting in a strong, uniform material with excellent durability, absorbency, cleanliness and softness and used in a variety of applications.

Our global presence and commitment to excellence have solidified our position as a premier provider of nonwoven fabric solutions for over 50 years.

Our Distinctive Manufacturing Process

Through our proprietary manufacturing process, we utilize high-pressure water jets to hydraulically entangle diverse fibres, **resulting in a resilient, strong and absorbent web using no binders, chemicals, or adhesives.** This innovative approach ensures exceptional mechanical strength, and superior absorbency, and because the fibers are washed during fabric formation, it exhibits very low lint. These unique features make Sontara® ideal for the cleaning requirements of the quality-conscious user.

The Sontara® manufacturing process is sustainable and ultra-pure. We use water of drinking quality and zero chemicals, and our manufacturing environment and air quality adhere to the highest standards.

Trusted by Highly Regulated Industries

Sontara® is recognized as a reliable and high quality brand for its consistent delivery of innovative solutions that meet the specific need of users and for maintaining high and strict standards of quality and consistency across product lines. This makes Sontara® ideal for highly regulated industries, such as, **Aerospace, Automotive, Cleanroom, Healthcare, Pharmaceuticals and Printing.**

With more than 50 years of experience, we have built a reputation as a dependable provider, ensuring that our products always meet the specific needs of these critical fields.

Commitment to Quality and Continuous Innovation

At Sontara®, our dedication to maintaining the highest standards of quality, consistency, and reliability is at the heart of everything we do. Our strict Quality Management System, endorsed by ISO 9001:2015 as well as OEKO-TEX® Standard 100 certification, signifies our promise of superior product quality. Complementing our commitment to quality is our dedication to continual product innovation. We strive to meet the real-world demands of industries, customers, and end consumers with meaningful advancements. Supported by our extensive global sales network, we deliver not only exceptional products but also steadfast service and support, ensuring a reliable supply chain for all our customers.
